

Full service, Quality Assurance and Flexibility

Classified as a non-polluting company and controlled by ECOCERT, our 2000 m² production site manufactures according to ISO 9001 and Good Manufacturing Practices' NF EN ISO 22716 standards and allows for perfect traceability throughout the manufacturing process.

Our state of the art full service facilities offer to manufacture your cosmetic and personal care lines.

Learn more about our **production capacities**:

With an annual capacity of **2 to 5 million units**, OCEALYS specializes in small to medium series, **from 500 to 100,000 units.**

Our flexibility makes it possible to launch many types of products and covers a wide array of packaging possibilities (bottles, jars, tubes, automatic labeling, and boxes).

Our professional team will carefully listen to your needs in order to fully and properly carry out your projects.
